## About Transparency Florida

Transparency Florida was created to provide the public with access to state government spending information by posting Florida's operating budget and associated expenditure records online.

Data on the site is updated nightly and includes:

- Operating Budget (appropriations, vetoes, budget amendments and other items that impact funding)
- Expenditures (vendor payments written for goods/service and funds transferred between budget categories)
- Personnel data (Agency personnel data is updated weekly. Legislative personnel data is updated monthly)

Users can review the data at varying levels of detail from a statewide perspective down to a specific category within a program or service. Several search options allows users to look for information based on language in the appropriations bill, object type or even vendor name. Reporting has been included to allow the user to download the information for external review.

Additional information can be obtained by contacting each state agency. We have included a list of [agency contacts](#) should you have additional questions, need more information, or wish to make a public records request.

## SCOPE

As required by s. 215.985(7), F.S., this report from the Joint Legislative Auditing Committee (Committee) provides recommendations related to the possible expansion of the Transparency Florida website,<sup>1</sup> including whether to expand the scope to include educational, local governmental, and other non-state governmental entities. Also, as required by s. 215.985(13), F.S., this report provides the progress made in establishing the single website required by the Transparency Florida Act and recommendations for enhancing the content and format of the website and related policies and procedures.

## BACKGROUND

### Overview of the Transparency Florida Act

The “Transparency Florida Act (Act),”<sup>2</sup> an act relating to transparency in government spending, requires several websites for public access to government entity financial information.

The Act, as originally approved in 2009,<sup>3</sup> required a single website to be established by the Executive Office of the Governor (EOG), in consultation with the appropriations committees of the Senate and the House of Representatives. Specified information relating to state expenditures, appropriations, spending authority, and employee positions and pay rates was required to be provided on the website.

Responsibilities assigned by law to the Committee included:

- oversight and management of the website;<sup>4</sup>
- propose additional state fiscal information to be included on the website;
- develop a schedule for adding information from other governmental entities to the website;<sup>5</sup>
- coordinate with the Financial Management Information Board in developing any recommendations for including information on the website which is necessary to meet the requirements of s. 215.91(8); and,
- prepare an annual report detailing progress in establishing the website and providing recommendations for enhancement of the content and format of the website and related policies and procedures.

In 2011, the Act was revised to require the Chief Financial Officer (CFO) to provide public access to a state contract management system that provides information and documentation relating to the contracting agency.<sup>6</sup> Other revisions included: (1) requiring the State’s five water management districts to provide monthly financial statements to their board members and to make such statements available for public access on their website, (2) exempting municipalities and special districts with total annual revenues of less

than \$10 million from the Act's requirements, and (3) several technical and clarifying changes.<sup>7</sup> Also, a revision to s. 11.40, F.S., removed the Committee's responsibility to manage and oversee the Transparency Florida website.<sup>8</sup>

Further revisions to the Act were adopted in 2013.<sup>9</sup> In addition to the two websites previously required, the Act now also requires the following websites:

- The EOG, in consultation with the appropriations committees of the Senate and the House of Representatives, is required to establish and maintain a website that provides information relating to fiscal planning for the State. Minimum requirements include the Legislative Budget Commission's long-range financial outlook; instructions provided to state agencies relating to legislative budget requests; capital improvements plans, long-range program plans and legislative budget requests (LBR) submitted by each state agency or branch of state government; any amendments to LBRs; and, the Governor's budget recommendation submitted pursuant to s. 216.163, F.S.
- The Department of Management Services is required to establish and maintain a website that provides current information relating to each employee or officer of a state agency, a state university, or the State Board of Administration. Minimum requirements include providing the names of employees and their salary or hourly rate of pay; position number, class code, and class title; and employing agency and budget entity.
- The EOG, in consultation with the appropriations committees of the Senate and the House of Representatives, is required to establish and maintain a single website that provides access to all other websites (four) required by the Act.

Additional revisions include:

- The minimum requirements for the Act's original website (information relating to state expenditures, appropriations, spending authority, and employee positions) were expanded to include balance reports for trust funds and general revenue; fixed capital outlay project data; a 10-year history of appropriations by agency; links to state audits or reports related to the expenditure and dispersal of state funds; and links to program or activity descriptions for which funds may be expended.
- The Committee is no longer required to recommend a format for collecting and displaying information from governmental entities, including local governmental and educational entities. Rather, the Committee is required to recommend: (1) whether additional information from these entities should be included on the website, and (2) a schedule and a format for collecting and displaying the additional information.
- Language related to the contract tracking system required to be posted by the CFO is expanded to: (1) provide timelines, (2) require each state entity to post information to the contract tracking system, (3) address confidentiality and other legal issues, (4) provide definitions, and (5) authorize Cabinet members to post the required contract tracking information to their own agency-managed websites in lieu of posting on the CFO's tracking system.

No revisions to the Act were made in 2014 or 2015. Additional details relating to the Act in its current form may be found in Appendix A.

# TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

## Previous Committee Effort

The Committee has issued three previous reports related to the Act. A brief summary of the recommendations of each report follows.

## 2010 Committee Report

The act, as originally written, required the Committee to develop a plan to add fiscal information for other governmental entities, such as municipalities and school districts, to the website. Although the Committee was authorized to also make recommendations related to state agency information, much of that information was specified in statute and was being implemented by the EOG, in consultation with the appropriations committees of the Senate and the House of Representatives. The Committee's initial focus was on school districts due to the consistency of financial information required of the State's 67 school districts. Specific recommendations and timeframes for adding school district fiscal information to *Transparency Florida*<sup>10</sup> were provided. Also, general recommendations were provided for adding fiscal information for other governmental entities, including state agencies, universities, colleges, counties, municipalities, special districts, and charter schools/charter technical career centers.

The Committee recommended the use of three phases for the addition of school district financial information to *Transparency Florida*. The Committee wanted citizens who visit either the home page of a school district's website or *Transparency Florida* to have the ability to easily access the school district's financial information that was located on the school district's website, the Department of Education's (DOE) website, and *Transparency Florida*.

The overall approach was to recommend that information which was readily available, with minimal effort and cost, to be included for school districts during the first phases of implementation. Most of the information should be located on the DOE's website with links to access it on *Transparency Florida*. This information included numerous reports prepared by the school districts, the DOE, and the Auditor General. The Committee expected that the first two phases could be accomplished without the need for additional resources.

Ultimately, once all phases were implemented, the goal was to provide transaction-level details of expenditures. Stakeholders expressed concern about the school districts' ability to provide this level of detail. School districts' accounting systems have the ability to capture expenditures at the sub-function and the sub-object levels.<sup>11</sup> These systems do not usually capture details of the amount spent on specific supplies, such as pencils or paper, or on a roofing project. Stakeholders also had concerns about the school districts' ability to provide this information on their websites, primarily due to cost and staffing issues. Their preference was for the State to build a data-system and require the school districts to upload via FTP (File Transfer Protocol) a monthly summary of expenditures at the sub-function and sub-object levels to *Transparency Florida*. Although Committee members were interested in more detailed information, this approach was agreed to with the idea that it was a starting point. In addition, the Committee recommended that the school districts provide vendor histories, to include details of expenditures for each vendor.

---

<sup>10</sup> For the purpose of this report, *Transparency Florida* refers to [www.transparencyflorida.gov/](http://www.transparencyflorida.gov/), the original website created pursuant to the Transparency Florida Act.

<sup>11</sup> For example, sub-function categories include costs associated with K-12, food services, and pupil transportation services; sub-object categories include costs associated with classroom teachers, travel, and textbooks.

## TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

Although both the State and the school districts would incur costs, the main financial burden of the project would fall on the State. Rough estimates of the State's cost ran into the millions of dollars. Due to the uncertainty of the cost estimates, the Committee members voted to recommend to delay this phase until further information is available.

### 2011 Committee Report

The initial Committee report, discussed above, recommended deferring implementation related to detailed school district financial transactions until the Committee had additional information and could further discuss the issues and potential costs involved. The premise was that the school districts would transmit monthly data to the State for display on *Transparency Florida*. As explained, the cost was expected to be in the millions of dollars, but only a rough estimate was available.

In light of the continued financial difficulties being faced by the State, the Committee decided to abandon this approach and recommend an alternative. The new focus was to keep local information at the local level and for the State to provide access to it on *Transparency Florida*.

Although the Committee understood that the goal of the project was to provide more financial transparency at all levels of government, it recognized that local governments<sup>12</sup> know best what information their citizens want available for review. The Committee did not believe that it was the State's responsibility to design and build a system to collect and display local governments' information. Rather, the Committee recommended that the State work in partnership with local governments, as they increase transparency on their websites, so that the full financial burden did not fall on the local governments.

The Committee recommended that representatives for each type of entity develop suggested guidelines for the type of financial information and the level of detail that should be included. Each local government should be responsible for providing its financial information on its own website. A link should be included on *Transparency Florida* for each entity that implements the suggested guidelines in order to provide a central access point.

The Committee suggested that the guidelines include a uniform framework to display the information in a well-organized fashion so as to provide easy, consistent access to all online financial information for all local governments. When developing the suggested guidelines, some of the financial information that the Committee recommended for consideration included a searchable electronic checkbook, plus various documents that are prepared during the normal course of business, such as budget documents, monthly financial statements, audit reports, and contracts and related information. The Committee's intent was to provide an opportunity for increased financial transparency for Florida's citizens, by providing guidance and flexibility to local governments, without causing a financial burden in the process.

### 2014 Committee Report

The Committee was presented with a draft of the report which included an update for the status of *Transparency Florida* and the related websites, but did not include any recommendations. Rather, the section of the report titled "Recommendations" included only the wording "To Be Determined." A separate handout was provided in the meeting packet which included: (1) recommendations that had been suggested by Committee members, (2) a series of questions intended to guide the members during their discussion of possible recommendations, and (3) a chart which listed various types of financial-related information that could potentially be considered in an expansion of the Transparency Florida website. Specifically, this

information was related to non-State entities, such as school districts, municipalities and other local entities, and included items such as budget documents, monthly financial statements, and contract information.

The Committee approved a motion to adopt the draft report “as is” by a vote of 10-1. This meant that the recommendations remained “To Be Determined” and no new information would be recommended for addition to *Transparency Florida* or the related websites. The member who voted against the motion did so because he had submitted a recommendation related to the online posting of college employee salaries that he had not had an opportunity to discuss prior to the time the motion was offered. At a subsequent meeting, the Committee adopted a related recommendation; however, because the report had already been approved, it was not available to be revised. Therefore, the recommendation was included in the cover letter which accompanied the report. The cover letter stated “[o]n February 17, 2014, the Committee recommended that the Florida Has a Right to Know website include the salary of each State University and Florida College System institution employee by position number only. The name of the employee should not be attached to the salary. Currently, the website provides the name and salary of each State University employee, in compliance with s. 215.985(6), F.S. The salaries of Florida College System institution employees are neither provided on the website, nor are they required to be provided under the provisions of the Transparency Florida Act (s. 215.985, F.S.)”

### Transparency-Related Legislation

During the 2010 Legislative Session, the Legislature adopted proviso language to implement the Committee’s recommendations related to school districts for the first two phases. The DOE was required to provide access to existing school district financial-related reports on its website, create a working group to develop recommendations to provide school-level data in greater detail and frequency, and publish a report of its findings by December 1, 2010. School districts were required to provide a link to *Transparency Florida* on their website. Links to the DOE and other website information were provided on *Transparency Florida*. The requirements assigned to the DOE and school districts were fulfilled.

In 2011, two bills were passed which, although not directly related to the Act, related to efforts to provide more financial transparency to Florida’s citizens. Senate Bill 1292 (2011)<sup>13</sup> required the Chief Financial Officer to conduct workshops with state agencies, local governments, and educational entities and develop recommendations for uniform charts of accounts. The final report was due in January 2014. An entity’s charts of accounts refers to the coding structure used to identify financial transactions. Most of the non-state entities are currently authorized to adopt their own charts of accounts. The school districts are the exception; the chart of accounts that they are required to use is specified by the DOE. During discussions related to determining recommendations for its first required report required by the Act, the Committee understood that the various charts of accounts used by entities across the state was an obstacle for providing financial data that could be compared from one entity to another.

Senate Bill 224 (2011)<sup>14</sup> required counties, municipalities, special districts, and school districts to post their tentative budgets, final budgets, and adopted budget amendments on their official websites within a specified period of time. If a municipality or special district does not have an official website, these documents are required to be posted on the official website of a county or other specified local governing authority, as applicable. Another provision required each local governmental entity to provide a link to the DFS’ website to view the entity’s annual financial report (AFR). The AFR presents a financial snapshot at

fiscal year-end of the entity's financial condition. It includes the types of revenue received and expenditures incurred by the entity. The format and content of the AFR is prescribed by the DFS.<sup>15</sup> See Appendix B for the specific requirements of the bill.

In 2013, a provision in House Bill 5401,<sup>16</sup> the bill which revised the Act, created the User Experience Task Force. Its purpose was to develop and recommend a design for consolidating existing state-managed websites that provide public access to state operational and fiscal information into a single website. The task force was comprised of four members, with one member each designated by the Governor, Chief Financial Officer, President of the Senate, and Speaker of the House. The task force's work plan was required to include a review of: (1) all relevant state-managed websites, (2) options for reducing the number of websites without losing detailed data, and (3) options for linking expenditure data with related invoices and contracts. The recommendations, due March 1, 2014, were required to include: (1) a design that provides an intuitive and cohesive user experience that allows users to move easily between varied types of related data, and (2) a cost estimate for implementation of the design.<sup>17</sup>

In 2014, Senate Bill 1632<sup>18</sup> required all independent special districts that had been created for one or more fiscal years to maintain an official website, effective October 1, 2015.<sup>19</sup> The website is required to include information specified in s. 189.069, F.S., such as the special district's charter, contact information, description of the boundaries, budget, and audit report(s).

The Legislature did not address the recommendations made in the Committee's 2011 report or in the cover letter to the 2014 report. As previously mentioned, the 2014 report did not include any recommendations.

## PRESENT SITUATION

### Status of Single Website

The requirements of s. 215.985(3), F.S., have been met. The single website titled "Florida Sunshine: Guiding you to the right financial source" provides external links to all other websites required by the Act and is available at <http://floridasunshine.gov/>. It provides access to: (1) Transparency Florida (State Finances), (2) Transparency Florida (State Budget), (3) Florida Has a Right to Know, (4) Florida Accountability Contract Tracking System (FACTS), (5) Florida Fiscal Portal, (6) Florida Government Program Summaries, and (7) Transparency Florida Act User Experience Task Force.

<sup>15</sup> See s. 218.32, F.S.

<sup>16</sup> Chapter 2013-54, L.O.F.

<sup>17</sup> The User Experience Task Force's Final Report is available online at <http://www.myfloridacfo.com/division/dis/transparencytaskeforce/Documents/UETFFinalRecommendation2-26-2014Updated.pdf>. The Task Force focused on eleven state-managed websites, including *Transparency Florida*, that provide state-wide financial information and recommended the following: (1) the use of [www.floridasunshine.gov](http://www.floridasunshine.gov) as a portal to access the information provided on these websites; (2) three levels of support for the portal, including a Transparency Steering Committee and the current website managers (i.e., the Governor's Office, the CFO's Office, etc.); (3) a three-pronged approach to education and training that includes a PowerPoint presentation and video of Florida's budget process; (4) categorizing the financial information provided in one of four categories: revenue, budget, spend, and audit; and (5) website features to include consistency in the display of webpages, the ability to search each website, compatibility with major web browsers, and numerous other suggestions to enhance the users' experience. The estimated cost to implement these recommendations is less than \$300,000; however the Task Force acknowledged that their recommendations are very high-level. The report stated that "[d]etailed requirements should be further developed to quantify the effort, costs, implementation schedule, and the detailed design." [p. 34]

<sup>18</sup> Chapter 2014-22, L.O.F.

<sup>19</sup> Dependent special districts are not required to maintain a separate website; however, their information must be accessible online from the website of the local general-purpose government that created the special district.

## Status of the Website Related to the Approved Operating Budget for State Government

The requirements of s. 215.985(4), F.S., have been met. The website titled “[Transparency Florida](#)” includes detailed financial-related information for state agencies and other units of state government for the fiscal years 2008-09 through the current fiscal year, 2015-16. School district information is also available.

### Summary of State Information Available on *Transparency Florida*

The main focus of *Transparency Florida* has been to provide current financial data related to the State’s operating budget and daily expenditures made by the state agencies. Such financial data is updated nightly as funds are released to the state agencies, transferred between budget categories, and used for goods and services.

In September 2015, an updated version of *Transparency Florida* was released. Effort was made to provide a simpler interface for users who may not be familiar with the state appropriations process and terminology, yet retain the depth of information for the more knowledgeable users.

The Home Page provides the following nine options for users to navigate through the website:

- General Public: Summary View of Budget and Spending by Agency;
- Budget Analyst: In-depth breakdown of Budget and Spending;
- Interactive Bill: View of Budget and Spending in Appropriations Bill format;
- State Positions: List of positions with corresponding Salaries and Benefits;
- Reports: Chart, compare, filter specific Budget and Spending data;
- Quick Facts: Summarized lists of similar Budget items;
- Search: Quickly find information on Budget and Spending items;
- Site Information: Information and help with this website; and
- Other Budget Links: Links to School Districts and other Government Budget information.

The first four options all relate to the State’s Operating Budget. By selecting the General Public option, some details of the operating budget are available in agency format. This format allows users to select a specific state agency, including the legislative branch and the state courts system, to view the fiscal year budget and the amount spent to date. The current fiscal year, 2015-16, is the default; however, users may view information for any fiscal year from 2008-09 through the current year by selecting from a drop-down menu. By clicking on the hyperlinks, users may drill down to view the operating budget and amount spent broken down by program.

The Budget Analyst option allows users to select either the agency format or the ledger format. The agency format displays the appropriation amount and number of positions for the fiscal year selected, listed by agency. Users may drill down to the program or service area by selecting an agency’s hyperlink. Additional details, including disbursements by object and an organizational schedule of allotment balances, are provided by continuing to select hyperlinks.

The ledger format displays appropriations-related information over the course of the fiscal year. It begins with the General Appropriations Act (GAA) and includes additional entries for Supplemental Appropriations, Vetoes, Budget Amendments approved by the Legislative Budget Commission, and other actions that effect the GAA. Users can select hyperlinks to obtain additional information for each item.

## TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

The Interactive Bill format displays the initial information as it appears in the General Appropriations Act. Again, users may drill down to view more detailed information by clicking on the hyperlinks. As the user drills down, the screen displays the information described above for the Budget Analyst option. By continuing to drill down, the name of each vendor associated with an expenditure is provided. Since the State does not have electronic invoicing, images of invoices are not provided; however, the statewide document number is provided, and users may contact the specified agency contact to request further information or a copy of an invoice.

The State Positions option provides position information by agency and by program. At the agency level, the number of fixed, excess, total, reserve, authorized, established, filled, and vacant positions may be viewed. By drilling down, which may be done by selecting the hyperlink for the program area, users may view salary for the positions by selecting the Details tab. Salaries are provided by position level only and do not include employee names.

The Budget Analyst, Interactive Bill, and State Positions options provide a new feature which allows the user to indicate whether or not he or she wishes to display the codes associated with each entry. All of the four options, including General Public, provide users with the ability to export the information into an Excel spreadsheet.

Various reports relating to the operating budget, appropriations/disbursements, fixed capital outlay, reversions, general revenue, and trust funds may be generated from *Transparency Florida* by selecting the Reports option. These reports include:

- Operating budget by expenditure type, fund source, or program area;
- Comparison of operational appropriations for two fiscal years by state agency and/or category;
- Comparison of operational appropriations to disbursements made within one fiscal year by state agency and/or category;
- Comparison of operational disbursements for two fiscal years by state agency, category, and/or object code;
- Disbursements by line item;
- Fixed capital outlay appropriations and disbursements by category and/or state agency;
- Operating budgets by expenditure type, fund source, or program area;
- Schedule of Allotment Balances;
- Annual operational reversions by fiscal year;
- Comparison of operational reversions by fiscal year;
- Fixed capital outlay appropriations, reversions, and outstanding disbursements by fiscal year;
- Five-year history of operational reversions;
- General Revenue Fund cash balance, cash receipts, and cash disbursements, by month and by year;
- Trust fund balances; and,
- Ten-Year History of Appropriation Reports

The Quick Facts option provides information related to budget amendments, back of bill appropriations, budget issues, supplemental appropriations, and vetoes. A description of each of these items, the dollar amount (if applicable), and other details are provided.

By selecting the Search Option, users may search the appropriations bill, budget issues, objects, and vendors by entering a key word or phrase or similar information and continue to drill down to obtain more detailed information.

## TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

The Site Information option provides the agency contact list, glossary, and frequently asked questions.

Finally, by selecting the Other Budget Links option, *Transparency Florida* provides links to various reports, websites, and other documents related to the state budget as follows:

- Fiscal Analysis in Brief: an annual report prepared and published by the Legislature that summarizes fiscal and budgetary information for a given fiscal year;
- Long-Range Financial Outlook 3-Year Plan: an annual report prepared and published by the Legislature that provides a long-range picture of the State's financial position by integrating projections of the major programs driving annual budget requirements with revenue estimates;

### Background and Summary of School District Information Accessible from *Transparency Florida*

To date, the only non-state financial-related information that is accessible from *Transparency Florida* relates to school districts. As previously discussed, the Committee's focus for its 2010 report was on the addition of school district information to the website. Proviso language in the 2010 General Appropriations Act<sup>21</sup> was based on the Committee's 2010 recommendations and required the DOE to:

- Coordinate, organize, and publish online all currently available reports relating to school district finances, including information generated from the DOE's school district finance database;
- Coordinate with the EOG to create links on *Transparency Florida* to school district reports by August 1, 2010;
- Publish additional finance data relating to school districts not currently available online, including school-level expenditure data, by December 31, 2010;
- Work with the school districts to ensure that each district website provides a link to *Transparency Florida*; and
- Establish a working group to study issues related to the future expansion of school finance data available to the public through *Transparency Florida*, develop recommendations regarding the establishment of a framework to provide school-level data in greater detail and frequency, and publish a report of its findings by December 1, 2010.

The DOE met the proviso language requirements and the EOG, working in consultation with the appropriations committees of the Senate and the House of Representatives, provided access to the related school district information on *Transparency Florida*. As a result, the following reports and other information are now accessible by selecting the Links option from the *Transparency Florida* Home Page:

- School District Summary Budget
- School District Annual Financial Report
- School District Audit Reports Prepared by the Auditor General
- School District Audit Reports Prepared by Private CPA Firms
- School District Program Cost Reports
- Financial Profiles of School Districts
- Florida Education Finance Program (FEFP) Calculations
- Five-Year Facilities Work Plan
- Public School District Websites

A description of these reports is provided in Appendix C.<sup>22</sup>

In addition, the websites of some school districts include a link to *Transparency Florida*. The proviso language that required school districts to post the link to *Transparency Florida* on their home page was in effect for the 2010-11 fiscal year. Currently, there is no such requirement.

The DOE established the workgroup required by the proviso language to address the expansion of school district information available on *Transparency Florida*. The School District Working Group's report, published in December 2010, recommended:

## TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

- Providing school-level data at the sub-function (i.e., K-12, food services, and pupil transportation services) and sub-object (i.e., classroom teachers, travel, and textbooks) levels;<sup>23</sup> and,
- Uploading school district data to *Transparency Florida* via file transfer protocol (FTP) on a monthly basis.

The sub-function and sub-object levels were recommended as the most cost effective method due to the variety of accounting packages used by the school districts. These report recommendations align with the Committee's 2010 recommendations for phase three of school district implementation. The goal of this phase was to provide more frequent and detailed information than had been recommended in the two earlier phases. The Committee's 2011 recommendation, however, was to require local entities, including school districts, to post their financial information on their own website. The Committee reversed the earlier recommendation which required entities to submit data to the State and the State bearing the responsibility to design and build a system to receive and display the information on *Transparency Florida*. The Committee's 2014 recommendation was to not require the inclusion of any additional information on *Transparency Florida* from school districts or any other entity.

### Status of the Website Related to Fiscal Planning for the State

The requirements of s. 215.985(5), F.S., have been met. The website titled "[Florida Fiscal Portal](#)" includes budget-related information for the fiscal years 2000-2001 through 2016-2017. Publications available include: (1) planning and budgeting instructions provided to state agencies, (2) agency legislative budget requests, (3) the Governor's recommended budget, (4) appropriations bills, (5) the approved budget, (6) the final budget report (prepared after year-end), (7) agency long-range program plans, (8) agency capital improvement plans, (9) fiscal analysis in brief, (10) long-range financial outlook 3-year plan, and other documents for selected years.

### Status of the Website Related to Employee Positions and Salary

The requirements of s. 215.985(6), F.S., have been met. The website titled "[Florida Has A Right To Know](#)," allows users to search payroll data from the State of Florida People First personnel information system. The database includes information from all Executive Branch agencies, the Lottery, the Justice Administrative Commission (including state attorneys and public defenders) and the State Courts System (including judges). In addition, spreadsheets provide information related to employees of the State Board of Administration and all 12 of the state universities.

Information available includes: (1) name of employee, (2) salary or other rate of pay,<sup>24</sup> (3) employing agency or entity, (4) budget entity, (5) position number, (6) class code, and (7) class title. The People First information is updated weekly, the university information is updated twice per year, and the State Board of Administration information is updated quarterly.

Known as the Red Book, this is the uniform chart of accounts required to be used by all Florida school districts for budgeting and financial reporting (see Sections 1010.01 and 1010.20, F.S., and Rule 6A-1.001, F.A.C.).

<sup>24</sup> Universities provide the amount paid per term for Other Personnel Service (OPS) employees; the remaining entities provide the hourly rate of pay for OPS employees.

## Status of the Contract Management System

The requirements of s. 215.985(14), F.S., have been met. The CFO established the [Florida Accountability Contract Tracking System \(FACTS\)](#), which provides online public access to information related to contracts, grant agreements, and purchase orders executed by most state agencies. According to staff of the Department of Financial Services, the Legislature, the Department of Agriculture and Consumer Services, and the Department of Legal Affairs do not use FACTS.<sup>25</sup> Information available includes: (1) agency name, (2) vendor/grantor name, (3) type (contract, grant, or purchase order), (4) agency assigned contract ID (if applicable), (5) grant award ID (if known), (6) total dollar amount, (7) commodity/service type, and (8) DFS contract audits (if applicable). Users may search for contract, grant, or purchase information by agency name, dollar value, commodity/service type (for contract and purchase orders), contract ID, MyFloridaMarketPlace (MFMP) purchase order number, vendor/grantor name, beginning and/or ending dates, and/or grant award ID. By selecting a specific contract, grant, or purchase order and drilling down, users may access detailed information such as statutory authority, deliverables, a record of payments made, and an image of the contract or grant agreement. State agencies are required to redact confidential information prior to posting the contract document image online. Due, in part, to the length of time necessary to review contracts to ensure that all confidential information has been redacted, there may be a delay in posting images. For contracts in which the Department of Financial Services has conducted an audit, either summary or more detailed information is available, depending on the date of the audit.<sup>26</sup>

## Status of Water Management District Information

The requirements of s. 215.985(11), F.S., have been met. All five of the state's water management districts indicated that they provide monthly financial statements to their governing board members. Also, monthly financial statements are posted on the website of each water management district dating back to January 2014 or earlier.

## Potential Entities Subject to Transparency Florida Act Requirements

A governmental entity, as defined in the Act, means any state, regional, county, municipal, special district, or other political subdivision whether executive, judicial, or legislative, including, but not limited to, any department, division, bureau, commission, authority, district, or agency thereof, or any public school district, community college, state university, or associated board. As originally passed, the Act required the Committee to recommend a format for displaying information from these entities on *Transparency Florida*. Smaller municipalities and special districts, defined as those with a population of 10,000 or less, were exempt from the Act. Entities that did not receive state appropriations were also exempt. Later, the Act was revised to provide an exemption based on revenues rather than population. Municipalities and special districts with total annual revenues of less than \$10 million were then exempt from the Act's requirements. In addition, the exemption for entities that did not receive state appropriations was removed.

---

<sup>25</sup> An exemption for these two Cabinet agencies, provided in s. 215.985(14)(i), F.S., authorizes each to create its own agency-managed website for posting contracts in lieu of posting such information on the CFO's contract management system. Both agencies, the Senate, and the House of Representatives provide contract information and documents on their respective websites. In addition, information related to Department of Agriculture and Consumer Services' contracts is on FACTS.

<sup>26</sup> By selecting the Audit tab for a specific contract, users are also provided a link to the Department of Financial Services' Transparency Florida Contract Audit page. On this webpage, a comprehensive list of contracts that have been audited from 2010-11 through 2014-15 fiscal years is provided that includes the evaluation criteria used during the audit and the number of contacts with deficiencies.

## TRANSPARENCY FLORIDA STATUS AND RECOMMENDATIONS

Subsequent to a major revision in 2013, current law does not require specific non-state entities to be included in the Committee’s recommendations or provide an exemption to any of these entities. The Committee is required to recommend “additional information to be added to a website, such as whether to expand the scope of the information provided to include state universities, Florida college system institutions, school districts, charter schools, charter technical career centers, local government units, and other governmental entities.”<sup>27</sup> The following table shows the number of non-state entities of each type that could potentially be recommended for inclusion:

Type of Entity (Non-State)	Total Number
School Districts	67
Charter Schools and Charter Technical Career Centers	640 <sup>28</sup>
State Universities	12
Florida College System Institutions	28
Counties	67 <sup>29</sup>
Municipalities	411
Special Districts	1652 active <sup>30</sup>
Regional Planning Councils	11
Metropolitan Planning Organizations	26
Entities affiliated with Universities and Colleges, such as the Moffitt Cancer Center	Unknown

To date, only school districts have been assigned responsibility related to the Transparency Florida Act. As previously discussed, the DOE was directed to work with the school districts to ensure that each district’s website provided a link to *Transparency Florida*. This requirement was based on proviso language and was applicable for the 2010-11 fiscal year.

# Audits of Lobbying Firm Compensation Reports

## Joint Legislative Auditing Committee

### Summary

The Joint Legislative Auditing Committee (Committee) has statutorily assigned responsibilities related to the audits of lobbying firm compensation reports. Lobbying firms are required to file quarterly compensation reports, and a specified percentage of these firms are required to be audited annually to determine the accuracy of their reporting. The audits are required to be conducted by independent contract auditors<sup>1</sup> selected by the lobbying firms from a list of qualified auditors maintained by the Committee. The auditors are required to follow procedures specified by the Committee during the course of the audit. The implementation efforts in 2007 and 2008 were not resolved, and no audits were conducted initially. During late 2013 and early 2014, the Committee proceeded with the statutory requirements to ensure that audits of compensation reports filed for the 2014 calendar year could begin in 2015. Audits performed on the randomly selected executive branch and legislative branch lobbying firms were completed by August 31, 2015.

### Overview

Bill: Senate Bill 6-B (Ch. 2005-359, *Laws of Florida*) is often referred to as the “gift ban.” Prior to its enactment, lobbyists were required to file periodic expenditure reports. Once the gift ban became effective, lobbyists were no longer required to file expenditure reports, but instead were required to file quarterly compensation reports.

Requirements: Section 11.40(3)(b), F.S., requires an audit of the quarterly compensation reports of 3% of all legislative branch and 3% of all executive branch lobbying firms by independent contract auditors (auditors). Various provisions in s. 11.40(3), F.S., require the Committee to: (1) develop a system to randomly select lobbying firms for audit, (2) develop procedures for the selection of auditors, (3) create and maintain a list of not less than 10 auditors approved to conduct the audits, and (4) develop guidelines to conduct the audits.<sup>2</sup>

Scope of Audits: On a quarterly basis, lobbying firms are required to report the compensation they receive from each principal<sup>3</sup> and the total they receive from all principals, in accordance with ss. 11.045(3)(a)1. and 112.3215(5)(a)1., F.S. (for legislative branch and executive branch lobbyists, respectively). The following reporting categories are required:

Total Compensation Provided or Owed to the Lobbying Firm from <b>Each</b> Principal	Total Compensation Provided or Owed to the Lobbying Firm from <b>All</b> Principals
\$0	\$0
\$1 - \$9,999	\$1 - \$49,999
\$10,000 - \$19,999	\$50,000 - \$99,999
\$20,000 - \$29,999	\$100,000 - \$249,999
\$30,000 - \$39,999	\$250,000 - \$499,999
\$40,000 - \$49,999	\$500,000 - \$999,999
\$50,000 or more ( <i>specific amount reported, rounded to the nearest \$1,000</i> )	\$1 million or more

<sup>1</sup> See definition of “independent contract auditors” in s. 11.40(3)(a), F.S. (page 3 of this document).

<sup>2</sup> Although the law states that an audit is to be conducted, the type of work to be performed does not meet the definition of an audit under the American Institute of Certified Public Accountants (AICPA) professional standards. In 2008, the Committee recommended an agreed-upon procedures engagement conducted in accordance with the attestation standards established by the AICPA. This recommendation was developed in cooperation with the Florida Board of Accountancy.

<sup>3</sup> “Principal” is defined as the person, firm, corporation, or other entity which has employed or retained a lobbyist.

The filed quarterly compensation reports are available for viewing on Online Sunshine by selecting "Legislative & Executive Branch Lobbyists" in the left column.

The auditors will perform procedures, specified by the Committee, on specified records of the lobbying firms selected for an audit and issue a report in accordance with professional standards describing the procedures performed and any findings.

Cost: The cost of the audits is required to be paid by the Legislature.

Selection of the Auditor: The Committee is required to maintain a list of not less than 10 auditors approved to conduct audits of the compensation reports. Once a lobbying firm has been notified by the Committee that it has been selected for an audit, it is required to select an auditor from the Committee's list. If the lobbying firm fails to make a selection within 30 days, the Committee is required to select the auditor to conduct the audit.

Auditor Independence: The law has a strict definition of independence for the auditors who conduct an audit of a lobbying firm's compensation reports. They cannot ever have had a direct personal relationship or a professional accounting, auditing, tax advisory, or tax preparing relationship with each other. The additional independence restriction provided in law relates to certain attest and nonattest services that may currently be allowed under the independence standards adopted by the Florida Board of Accountancy.

Status: The Committee adopted guidelines which include the procedures the auditors will follow during the engagement and provide examples of the types of records that lobbying firms may use to document compensation. The Committee also approved procedures for the selection of the auditors and the lobbying firms.

A RFP process was used to solicit CPAs / CPA firms who were qualified and interested in conducting the audits. Four audit firms responded to the RFP and were approved to conduct the audits; however, one firm withdrew from consideration before the contracts were executed. The contracts are renewable for up to three additional years.

A random number generator was used to determine the 26 lobbying firms (12 executive branch firms; 14 legislative branch firms) selected for an audit of their 2014 quarterly compensation reports. For each audit, a maximum number of billable hours was authorized, based on the number of principals the lobbying firm was registered to represent. In addition, a maximum travel allowance was authorized for audits in which the audit firm and lobbying firm were not located in the same vicinity. Audit firms could request an increase in either or both of these amounts if they determined the authorized amounts were insufficient to complete the engagement.

All audits were completed by August 31, 2015. The audit firms billed the Legislature a total of \$121,027.51 for all 26 audits. A similar schedule is expected to be followed for the audits of the 2015 quarterly compensation reports.

## Statutory Language

### Section 11.40, *Florida Statutes*

(3)(a) As used in this subsection, "independent contract auditor" means a state-licensed certified public accountant or firm with which a state-licensed certified public accountant is currently employed or associated who is actively engaged in the accounting profession.

(b) Audits specified in this subsection cover the quarterly compensation reports for the previous calendar year for a random sample of 3 percent of all legislative branch lobbying firms and a random sample of 3 percent of all executive branch lobbying firms calculated using as the total number of such lobbying firms those filing a compensation report for the preceding calendar year. The committee shall provide for a system of random selection of the lobbying firms to be audited.

(c) The committee shall create and maintain a list of not less than 10 independent contract auditors approved to conduct the required audits. Each lobbying firm selected for audit in the random audit process may designate one of the independent contract auditors from the committee's approved list. Upon failure for any reason of a lobbying firm selected in the random selection process to designate an independent contract auditor from the committee's list within 30 calendar days after being notified by the committee of its selection, the committee shall assign one of the available independent contract auditors from the approved list to perform the required audit. No independent contract auditor, whether designated by the lobbying firm or by the committee, may perform the audit of a lobbying firm where the auditor and lobbying firm have ever had a direct personal relationship or any professional accounting, auditing, tax advisory, or tax preparing relationship with each other. The committee shall obtain a written, sworn certification subject to s. 837.06, both from the randomly selected lobbying firm and from the proposed independent contract auditor that no such relationship has ever existed.

(d) Each independent contract auditor shall be engaged by and compensated solely by the state for the work performed in accomplishing an audit under this subsection.

(e) Any violations of law, deficiencies, or material misstatements discovered and noted in an audit report shall be clearly identified in the audit report and be determined under the rules of either house of the Legislature or under the joint rules, as applicable.

(f) If any lobbying firm fails to give full, frank, and prompt cooperation and access to books, records, and associated backup documents as requested in writing by the auditor, that failure shall be clearly noted by the independent contract auditor in the report of audit.

(g) The committee shall establish procedures for the selection of independent contract auditors desiring to enter into audit contracts pursuant to this subsection. Such procedures shall include, but not be limited to, a rating system that takes into account pertinent information, including the independent contract auditor's fee proposals for participating in the process. All contracts under this subsection between an independent contract auditor and the Speaker of the House of Representatives and the President of the Senate shall be terminable by either party at any time upon written notice to the other, and such contracts may contain such other terms and conditions as the Speaker of the House of Representatives and the President of the Senate deem appropriate under the circumstances.

(h) The committee shall adopt guidelines that govern random audits and field investigations conducted pursuant to this subsection. The guidelines shall ensure that similarly situated compensation reports are audited in a uniform manner. The guidelines shall also be formulated to encourage compliance and detect violations of the legislative and executive lobbying compensation reporting requirements in ss. 11.045 and 112.3215 and to ensure that each audit is conducted with maximum efficiency in a cost-effective manner. In adopting the guidelines, the committee shall consider relevant guidelines and standards of the American Institute of Certified Public Accountants to the extent that such guidelines and standards are applicable and consistent with the purposes set forth in this subsection.

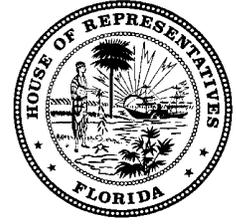

(i) All audit reports of legislative lobbying firms shall, upon completion by an independent contract auditor, be delivered to the President of the Senate and the Speaker of the House of Representatives for their respective review and handling. All audit reports of executive branch lobbyists, upon completion by an independent contract auditor, shall be delivered by the auditor to the Commission on Ethics.

## Summary of Agreed-Upon Procedures (AUP) Findings Reported

*Note: Only engagements in which one or more exceptions (findings) were noted are listed below.*

### Executive Summary

In November 2013, the Joint Legislative Auditing Committee (Committee) adopted *Guidelines for Attestation Services Relating to Quarterly Lobbying Firm Compensation Reports (Guidelines)*. In February 2015, Committee staff, following procedures approved by the Committee, and with assistance from the Auditor General's Office, randomly selected 3% of the executive branch lobbying firms and 3% of the legislative branch lobbying firms for an audit.<sup>1</sup> The 12 and 14 lobbying firms selected, respectively, were provided 30 days from the date of the Committee's notification of their selection to choose one of three audit firms approved to perform the AUP engagements. Five lobbying firms either deferred this decision to the Committee or did not make a selection within the timeframe authorized; therefore, the Committee assigned an audit firm to these AUP engagements. The *Guidelines* provided the audit firms with specific steps (procedures) to follow during each AUP engagement. These procedures include comparisons of documents filed with the Legislature's Division of Law Revision and Information, comparisons of documents filed with lobbying firm records, and the receipt of a representation letter from the lobbying firm. Instances in which any discrepancies were noted were required to be reported as a finding or exception by the audit firm. Engagements were performed between March and August 2015 on the 2014 Quarterly Lobbying Firm Compensation Reports filed.

Of the 26 AUP engagements performed, exceptions (findings) were reported for 16 lobbying firms. Findings were reported for 6 of the 12 AUP engagements performed related to executive branch compensation and for 10 of the 14 AUP engagements performed related to legislative branch compensation.

Compensation was overstated by ten lobbying firms for one or more quarters for one or more principals. Compensation was understated by six lobbying firms for one or more quarters for one or more principals. Three lobbying firms overstated compensation for one principal for one or more quarters and understated compensation for one or two principals for a different quarter during the year. One lobbying firm understated compensation for five principals for one or more quarters, overstated compensation for one principal for two quarters, and understated total compensation for two quarters.

Exceptions noted that did not relate to the compensation amounts reported during 2014 include:

- One firm billed a registration fee to the principal that was not included in the agreement.
- No documentation of compensation was available from one lobbying firm for one principal; the principal was to provide the lobbying firm with \$1 annually for its services.
- One payment received by a lobbying firm registered to represent one principal lacked sufficient documentation to determine who the payment was from.
- One lobbying firm began lobbying for one principal in 2014; however, a registration and authorization form were not filed with the State of Florida until 2015.

---

<sup>1</sup> Although Chapter 11.45(3), Florida Statutes, refers to an audit, the type of work performed did not meet the definition of an audit under professional auditing standards. An agreed-upon procedures engagement is a type of attestation engagement; the use of this type of engagement in lieu of an audit was worked out in cooperation with the Florida Board of Accountancy.

- One lobbying firm did not list one principal on the compensation reported for one quarter and two principals on the compensation reported for a second quarter. In both cases, the lobbying firm received no compensation during the respective quarter and should have reported \$0 compensation.
- One lobbying firm listed an individual as a lobbyist on the quarterly lobbying firm compensation reports; however, the individual was not listed as a lobbyist on the registration form.
- One lobbying firm listed a principal's name incorrectly on the compensation reports for all four quarters.

**National Strategies, LLC**

The amounts reported for both legislative and executive branch lobbying for 2014 were overstated. The lobbying firm reported 100% of the contracted compensation for both legislative and executive branch lobbying. As the lobbying firm did not utilize and document a reasonable allocation method between compensation for such legislative branch versus executive branch lobbying services rendered, then the assumption is that compensation should be equally split (50-50) between the two categories of lobbying services. See results that follow:

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

**A. Introduction**

**1. Purpose**

Chapter 2005-359, Laws of Florida, mandates the filing of quarterly lobbying firm compensation reports that must be prepared and filed by both legislative branch and executive branch lobbying firms as defined in law.<sup>1</sup> The law also requires the Joint Legislative Auditing Committee (Committee) to adopt guidelines to govern random audits and field investigations of the quarterly compensation reports filed by lobbying firms in accordance with Sections 11.045 and 112.3215, *Florida Statutes*.

The purpose of these Guidelines is to provide direction to lobbying firms and to certified public accountants (CPA) and CPA firms selected to perform the attestation services specified herein relating to the compensation reports filed by lobbying firms in accordance with Sections 11.045 and 112.3215, *Florida Statutes*. The Guidelines also describe the types of compensation-related records that should be maintained by the lobbying firms and made available to the CPA or CPA firm during the performance of the attestation services. These Guidelines are intended to supplement, rather than replace, the judgment of the independent CPA performing the attestation services.

In all cases, decisions and judgments by the CPAs should be made based upon applicable attestation standards established by the American Institute of Certified Public Accountants, provisions of *Florida Statutes*, and direction given in these Guidelines. Also, for background purposes, the CPAs should familiarize themselves with Joint Rule One of the Florida Legislature and Chapter 34-12, *Florida Administrative Code* (Rules of the Florida Commission on Ethics), as they relate to lobbying and compensation reporting requirements for the legislative branch and executive branch, respectively. Further guidance, including a frequently-asked questions document, will address issues and questions that may arise during the performance of the attestation services or from lobbying firms complying with the reporting requirements.

These guidelines govern attestation services relating to quarterly compensation reports filed after January 1, ~~2014~~2015. The attestation services described in these guidelines will begin after the deadline for filing the final compensation reports for calendar year ~~2014~~2015, and the procedures described in section F.2. below will be performed on each quarterly compensation report filed by the randomly selected lobbying firm for the preceding calendar year.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

**2. Responsible Parties**

The Lobbyist Registration Office (Office) within the Office of Legislative Services, Division of Law Revision and Information (Division), administers lobbyist registrations for the legislative branch. The Commission on Ethics (Commission) administers lobbyist registrations for the executive branch. The Commission has co-located Commission employees in the Office. The Office maintains and provides this information to legislators, staff, public agencies, and the public. The lobbying firms are required to file quarterly lobbying firm compensation reports electronically with the Division. The Division is responsible for maintaining the electronic filing system and ensuring that all of the lobbyist registration forms and compensation reports are available for public inspection and duplication, if requested. The Division is also responsible for ensuring that the forms and reports filed with the Division are reasonably available on the Internet in an easily understandable and accessible format.

The Legislative committee charged with administrative responsibility for the process mandated in Chapter 2005-359, Laws of Florida (now Section 11.40(3), *Florida Statutes*), is the Joint Legislative Auditing Committee (Committee).

**3. Committee Contact**

The Committee Coordinator is assigned to act as liaison to the CPAs and CPA firms performing the attestation services relating to the quarterly lobbying firm compensation reports and can be contacted as follows:

Telephone: (850) 487-4110  
Email: [jlac@leg.state.fl.us](mailto:jlac@leg.state.fl.us)  
FAX: (850) 922-5667

**4. Questions**

Questions concerning the attestation services specified in these Guidelines, report formats, or special situations or circumstances encountered during the performance of the attestation services are encouraged from any CPA firm staff member. All such questions should be directed to the Committee contact at the telephone number, email, or FAX number listed above.

All other questions should be directed to the Committee contact, preferably in writing at the email or FAX number listed above.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

**B. Definitions**

The following are definitions of terms used throughout these guidelines:

Committee - the Joint Legislative Auditing Committee established by Joint Rule 4.1, *Joint Rules of the Florida Legislature*, or its successor committee.

Compensation<sup>2</sup> - a payment, distribution, loan, advance, reimbursement, deposit, salary, fee, retainer, or anything of value provided or owed to a lobbying firm, directly or indirectly, by a principal for any lobbying activity. [Sections 11.045(1)(b), and 112.3215(1)(c), *Florida Statutes*]

Independent contract auditor - a state-licensed certified public accountant or firm with which a state-licensed certified public accountant is currently employed or associated who is actively engaged in the accounting profession. [Section 11.40(3)(a), *Florida Statutes*]

Lobbies/Lobbying - seeking, on behalf of another person, to influence an agency with respect to a decision of the agency in the area of policy or procurement or an attempt to obtain the goodwill of an agency official or employee. [Section 112.3215(1)(f), *Florida Statutes*]; influencing or attempting to influence legislative action or nonaction through oral or written communication or an attempt to obtain the goodwill of a member or employee of the Legislature. [Section 11.045(1)(e), *Florida Statutes*]

Lobbying firm - any business entity, including an individual contract lobbyist, that receives or becomes entitled to receive any compensation for the purpose of lobbying, where any partner, owner, officer, or employee of the business entity is a lobbyist. [Sections 11.045(1)(f) and 112.3215(1)(g), *Florida Statutes*]

Lobbyist - a person who is employed and receives payment, or who contracts for economic consideration, for the purpose of lobbying, or a person who is principally employed for governmental affairs by another person or governmental entity to lobby on behalf of that other person or governmental entity. [Sections 11.045(1)(g) and 112.3215(1)(h), *Florida Statutes*]

Principal - the person, firm, corporation, or other entity which has employed or retained a lobbyist. [Sections 11.045(1)(i) and 112.3215(1)(i), *Florida Statutes*]

Workpapers - documentation developed or obtained by the CPA during the course of the attestation engagement as a basis for, and in support of, the agreed-upon procedures

---

<sup>2</sup> It should only include compensation for lobbying before the Florida Legislature and state officials. It should not include compensation for lobbying local (i.e., counties, municipalities, special districts, universities, colleges, district school boards, etc.), municipal, or federal officials or officials of other states.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

report. Such documentation is the record of procedures performed, relevant evidence obtained, and conclusions reached by the CPA. It may include letters of confirmation and representation, schedules, copies of relevant documents, and correspondence concerning issues and questions that arise during the engagement. The workpapers are governed by standards adopted by the Florida Board of Accountancy. Ownership of such workpapers and the CPA's responsibilities related to communications with clients<sup>3</sup> and confidential client information are set forth in Sections 473.316 and 473.318, *Florida Statutes*, and Chapter 61H1-23, *Florida Administrative Code* (Rules of the Florida Board of Accountancy). Additionally, such workpapers are confidential and exempt from disclosure pursuant to Sections 112.3215(8)(d) and 11.0431(2)(a) and (i), *Florida Statutes*.

**C. Compensation-Related Records to be Maintained**

Each lobbying firm and each principal shall preserve for a period of 4 years all accounts, bills, receipts, computer records, books, papers and other documents and records necessary to substantiate compensation. [Sections 11.045(2)(e) and 112.3215(5)(e), *Florida Statutes*] The lobbying firm's bookkeeping and accounting system need not be sophisticated; however, the lobbying firm should be using a reasonably systematic method of accounting for its financial transactions.

Records that should be maintained by the lobbying firm to document compensation received from or owed by a principal may include, but are not limited to, the following:

1. Agreements and/or contracts for lobbying (however termed) between the lobbying firm and each principal by calendar year, including any amendments to such agreements or contracts.
2. Agreements and/or contracts between the lobbying firm and other lobbying firms or lobbyists that are working on a subcontractor basis with the lobbying firm for the purpose of lobbying (however termed), including any amendments to such agreements or contracts.
3. A schedule of contracted compensation by principal that indicates the payment schedule for such compensation (i.e., as services are rendered and billed, monthly, quarterly, lump sum at beginning of contract period, lump sum at end of contract period, etc.).
4. Payment records by principal, including original receipts documentation. Such payment records should include: principal name, date of each payment, amount of each payment, and any amounts billed but not yet received. Original receipts

---

<sup>3</sup> For purposes of these guidelines, client is defined as both the Legislature and the lobbying firms.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

documentation should include: receipts, invoices, or copies of the payment check; and deposit slips or other bank records that indicate that payments received from principals were deposited.

5. If the compensation reported includes any reimbursements received, then documentation to substantiate the reimbursement must be maintained. Such documentation could include receipts or invoices describing the goods or services for which reimbursement was requested, cancelled checks, and credit card receipts.
6. Records to document any allocation of compensation from a principal.

The Committee recognizes that a reasonable, common sense approach is necessary when any allocation is required. Therefore, in calculating such allocated amounts, any reasonable, fact-based method of calculation is acceptable.

One method that could be utilized is allocating the compensation based on percentage of time spent on activities. For example, actual time spent (hours or minutes) multiplied by the hourly rate of pay (for each lobbyist or support staff working on each activity).

It is imperative, however, that documentation be maintained to support both the method and any percentages used to determine amounts allocated to the following areas:

- a) Lobbying services versus non-lobbying services
- b) Florida legislative branch lobbying versus executive branch lobbying
- c) Florida legislative or executive branch lobbying versus lobbying any level or branch of a local, ~~municipal~~, other state, or federal government.

The lobbying firm may choose to keep records of all Florida legislative or executive branch lobbying activities separate from the records of all other such lobbying and non-lobbying activities. If this is the case, then the lobbying firm is not required to make any documents related to any other lobbying or non-lobbying activities available as part of the attestation engagement. However, if the lobbying firm has chosen to keep records and accounts which ordinarily and customarily integrate both Florida legislative and/or executive branch lobbying activities and all other such lobbying and non-lobbying activities, then such integrated records must be made available during the attestation engagement if they are necessary to document all or a portion of the compensation amounts included on the quarterly compensation reports.

The types of documentation that may be used to support an allocation of compensation include, but are not limited to, the following:

GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

- a) Signed time sheets or other records for each lobbying firm staff member that reflect the actual time spent (in hours or minutes) on lobbying activities for a principal, including reports generated by a time-reporting system using a coding or other system to identify time spent on lobbying activities with respect to a principal for purposes of billing for lobbying services;
- b) Salary information that indicates the hourly rate of pay for each lobbying firm staff member who worked on lobbying activities for a principal;
- c) Written contract or agreement for lobbying services signed by the parties specifying a fixed amount for lobbying services or providing for an agreed-upon allocation of compensation using specified percentages or other agreed-upon allocation;
- d) Written statement(s), signed by a management-level employee of either or both the lobbying firm and the principal, that describes the specific reasons for allocating compensation using specified percentages (i.e., 60% legislative branch and 40% executive branch or 70% lobbying services and 30% non-lobbying services).

An allocation method may be adjusted if the lobbying firm determines that such adjustments need to be made to accurately reflect current activity. Documentation as discussed above should be maintained to support any such adjustments.

**D. Record Redaction**

The Committee recognizes that records maintained by a lobbying firm and used to substantiate compensation may contain privileged or confidential information, the disclosure of which is not necessary for the CPA or CPA firm to perform the attestation procedures specified herein. A lobbying firm may redact information that is privileged or confidential so long as such redaction does not prevent the CPA or CPA firm from using the records to substantiate the accuracy of the compensation reported, the principal owing or providing the compensation, and the related time period.

If a lobbying firm refuses to provide documentation or if the lobbying firm provides redacted documentation that prevents the CPA or CPA firm from substantiating the compensation reported, the CPA or CPA firm should contact the Committee Coordinator for assistance.

**E. Records Retention**

The records retention requirements are established in Sections 11.045(2)(e) and 112.3215(5)(e), *Florida Statutes*. Each lobbying firm and each principal is required to preserve for a period of **4 years** “all accounts, bills, receipts, computer records, books, papers, and other documents and records necessary to substantiate compensation.”

LOBBYING FIRM COMPENSATION REPORTS**

**F. Objectives and Requirements for Attestation Services**

**1. Objectives**

The legislative objective of the process mandated in Section 11.40(3), *Florida Statutes*, is to obtain a timely attestation report from a CPA or CPA firm, licensed by the Florida Board of Accountancy. The attestation engagement is to be conducted and the attestation report is to be prepared in accordance with the applicable attestation standards promulgated by the American Institute of Certified Public Accountants as adopted by the Florida Board of Accountancy in Chapter 61H1-20, *Florida Administrative Code*. The specific procedures performed on the randomly selected lobbying firm's quarterly compensation reports will be as agreed upon between the Legislature and the CPA or CPA firm selected to perform such procedures. Such procedures are described in section FE.2. below and have been adopted by the Committee as authorized by Section 11.40(3)(h), *Florida Statutes*.

**2. Agreed-Upon Procedures to be Performed**

The agreed-upon procedures to be performed by the CPA or CPA firm selected to perform the attestation engagement are described below. Revisions to such procedures may be made if determined to be necessary by the Committee or by joint agreement of the presiding officers. Such revisions must be agreed upon in writing by the Committee or joint agreement of the presiding officers and the CPA or CPA firm contracted to perform such services. No oral agreements shall be valid or binding.

a) Documentation to be Obtained

Obtain the following documentation from the Committee office:

- 1) all of the quarterly lobbying firm compensation reports (original and amended) for the calendar year that the lobbying firm filed with the Division;<sup>4</sup>
- 2) the registration form and the authorization form filed with the Division by each lobbyist of the lobbying firm for the calendar year; and
- 3) any change of address forms or cancellation forms filed with the Division by each lobbyist of the lobbying firm for the calendar year.

---

<sup>4</sup> The quarterly compensation reports are also available on the Division's website (<http://olcrpublic.leg.state.fl.us/>).

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

Note: If the lobbying firm filed an amended compensation report subsequent to the time the Committee office obtained the above-noted reports from the Division, but prior to audit fieldwork, then such amended reports must be obtained directly from the Division's website to verify that the amended compensation report was properly filed.

b) Comparison of Documents Filed with the Division

- 1) Compare the lobbyist(s) registered for the lobbying firm per the registration form(s) to the lobbyists listed on the quarterly lobbying firm compensation reports, noting any differences. Obtain a detailed explanation from the lobbying firm for any differences and document the explanation in the workpapers.
- 2) Compare the principal(s) listed for each lobbyist of the lobbying firm per the registration form(s) to the principal(s) listed on the quarterly lobbying firm compensation reports, noting any differences. Obtain a detailed explanation from the principal(s) for any differences and document the explanation(s) in the workpapers.

A finding must be included in the report if the explanations are not sufficiently documented or if a lobbyist or principal was included on a compensation report, but was not registered. In addition, a statement should be included in the report if the lobbying firm filed an amended compensation report as a result of a finding.

c) Comparison of Documents Filed with Lobbying Firm Records

Request access from the lobbying firm to the documentation that supports all of the compensation amounts reported on the quarterly lobbying firm compensation reports, including \$0 amounts (i.e., applicable agreements and/or contracts for lobbying services, payment records, and original receipts). If agreeable to the lobbying firm, such original documentation may be shipped to/from the CPA or CPA firm's office. In addition, if preferred by the lobbying firm, a review of such documentation may be performed on site at the Lobbying Firm's office(s). If problems relating to access of such records and documentation are encountered, contact the Committee Coordinator for assistance.

GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

2)1) ~~Request and~~ review all agreements and/or contracts for lobbying (however termed) between the lobbying firm and each principal that cover the calendar year, including any amendments. Also request and review all agreements and/or contracts between the lobbying firm and other lobbying firms or lobbyists that are working on a subcontractor basis with the lobbying firm for the purpose of lobbying, including any amendments.

3)2) Review the agreements/contracts obtained in section F.2.c2 above and verify that none are contingency fee based,<sup>5</sup> unless an exception is provided in law (i.e., related to a claim bill (both legislative and executive); compensation or commission of a salesperson as part of a bona fide contractual relationship with company paying the compensation or commission (executive only)). A finding must be included in the report if it is determined that an agreement or contract was based on a contingency fee in violation of law.

4)3) Using the above-noted agreements and/or contracts, prepare (or obtain from the lobbying firm, if available) a schedule of the contracted compensation by principal, noting the payment schedule for such compensation (i.e., as services are rendered and billed, monthly, quarterly, lump sum at beginning of contract period, lump sum at end of contract period, etc.).

If the schedule is prepared by the lobbying firm, compare all compensation amounts per the schedule to the agreements and/or contracts. Resolve any differences, documenting the explanations provided by the lobbying firm in the workpapers.

Formatted: Underline

5)4) Compare the principals per the schedule in section F.2.c4 above to the principals noted in (b) above. Resolve any differences, documenting the explanations provided by the lobbying firm in the workpapers.

6)5) Compare all of the compensation reported as provided or owed to the lobbying firm from each principal per the quarterly lobbying firm compensation reports to the schedule in section F.2.c4 above. Resolve any differences, documenting the explanations provided by the lobbying firms (timing, etc.) in the workpapers.

7)6) In order to verify the reported amounts, compare all of the compensation amounts provided or owed to the lobbying firm by each principal to the applicable client (principal) payment records and original

<sup>5</sup> See Sections 11.047 and 112.3217, *Florida Statutes*, relating to contingency fees.

LOBBYING FIRM COMPENSATION REPORTS**

receipts documentation, as described in section C.4. above. Prepare a schedule to document the results and notes to describe the procedures performed and the records utilized.

Any differences noted while performing the procedures specified in this section (F.2.c) must be discussed with the lobbying firm, and explanations obtained and documented. A finding must be included in the report if the explanations are not sufficiently documented. [In addition, a statement should be included in the report if the lobbying firm filed an amended compensation report as a result of a finding.](#)

d) Allocation of Compensation

Documentation, as discussed in section C.6. above, must be maintained to support both the method and any percentages used to determine any amounts allocated.

If any compensation amounts have been allocated between any of the following categories of services: (1) lobbying services versus non-lobbying services, (2) Florida legislative branch lobbying versus executive branch lobbying, (3) Florida legislative or executive branch lobbying versus lobbying any level or branch of a local, ~~municipal~~, other state, or federal government, then:

- 1) Verify that the explanation(s) and documentation provided by the lobbying firm for each allocation is in accordance with either the allocation determined and documented by the lobbying firm or the default methodology described below for each applicable category.
- 2) Using the schedule in section F.2.c4 above, verify that the allocated compensation amounts were correctly included or omitted from the quarterly lobbying firm compensation reports in order to verify the reported amounts.
- 3) Prepare a schedule to document the results and include any documentation provided by the lobbying firm in the workpapers. As described below, certain findings must be included in the report. Any finding must include a description of the amount allocated and any explanation provided by the lobbying firm as to why the allocation method was not documented.

• **Lobbying services versus non-lobbying services**

If the lobbying firm provided non-lobbying services to the principal, the compensation for the non-lobbying services must be excluded from the compensation report.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

If the lobbying firm has not utilized and documented a reasonable allocation method between compensation from a principal for lobbying versus non-lobbying services, then the CPA will probably need to look at additional records maintained by the lobbying firm in order to determine that only compensation for lobbying services was included on the quarterly compensation reports.

If there is not sufficient documentation to determine that the amounts reported on the quarterly compensation reports are only for lobbying services rendered, then a finding must be included in the report.

- **Florida legislative branch lobbying versus executive branch lobbying**

If the lobbying firm is providing both Florida legislative branch and executive branch lobbying services, there must be no double reporting of compensation on the legislative branch and the executive branch quarterly compensation reports.

If the lobbying firm has not utilized and documented a reasonable allocation method between compensation for such legislative branch versus executive branch lobbying services rendered, then the assumption will be that the compensation should be equally split (50-50) between the two categories of lobbying services.

A finding must be included in the report if the compensation reported on the quarterly compensation reports is not accurate based on either the allocation records maintained by the lobbying firm or the assumption applied, in the case where no allocation method was utilized and sufficiently documented by the lobbying firm.

- **Florida legislative or executive branch lobbying versus lobbying any level or branch of a local, ~~municipal~~, other state, or federal government**

If the lobbying firm lobbied any level or branch of a local, ~~municipal~~, other state, or federal government, the compensation for these lobbying services must be excluded from the compensation report.

If the lobbying firm has not utilized and documented a reasonable allocation method between compensation received for Florida legislative branch lobbying or executive branch lobbying services versus lobbying any level or branch of a local, municipal, other state, or federal government, then the assumption will be that the compensation should be equally proportioned between the categories of lobbying services described in the contract,

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

agreement or other document that denotes the lobbying services to be provided by the lobbying firm.

A finding must be included in the report if the compensation reported on the quarterly compensation reports is not accurate based on either the allocation records maintained by the lobbying firm or the assumption applied, in the case where no allocation method was utilized and sufficiently documented by the lobbying firm.

e) Representation Letter from Lobbying Firm

Obtain a representation letter from the lobbying firm, indicating that the lobbying firm has provided full and complete records to the CPA or CPA firm, including all pertinent contracts and/or agreements for lobbying services provided during the calendar year and related supporting documentation. A sample representation letter is included as Appendix 1.

f) Written Statement of Explanation or Rebuttal from the Lobbying Firm

Inquire if the lobbying firm would like to provide a written statement of explanation or rebuttal concerning any or all of the auditor's findings for inclusion in the agreed-upon procedures report. Request that the lobbying firm provide such written statement(s) within 7 days of audit inquiry. Include any such written statement of explanation or rebuttal for a finding in the report, as either a paragraph below the applicable finding or an appendix to the report.

g) Preparation of Agreed-Upon Procedures Report

Prepare an agreed-upon procedures report in accordance with attestation standards promulgated by the American Institute of Certified Public Accountants as adopted by the Florida Board of Accountancy. A sample report shell is included as Appendix 2.

Pursuant to the requirements of Section 11.40(3)(f), *Florida Statutes*, a schedule must be prepared and included as an appendix to the report that states the name, address, and title, if any, of any individual in the lobbying firm who failed to fully, voluntarily, and promptly participate in the attestation engagement process, or to provide any reasonably relevant documentation requested by the CPA or CPA firm in the course of conducting the attestation engagement.

gh) Distribution of Agreed-Upon Procedures Report

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

The agreed-upon procedures report, which includes copies of the quarterly lobbying firm compensation reports as an appendix, and the schedule prepared in (f) above must be distributed as follows:

- 1) ~~If the report is of a legislative branch lobbying firm, as soon as the engagement is completed, provide an electronic copy of the report to the Committee and to the lobbying firm. In addition, once all engagements have been completed, provide three bound copies of each report to the Committee. an original of such report The Committee will provide the reports to the President of the Florida Senate and to the Speaker of the Florida House of Representatives. An original of such report must also be provided to the Committee.~~
- 2) If the report is of an executive branch lobbying firm, as soon as the engagement is completed, provide an electronic copy of the report to the Committee and to the lobbying firm. In addition, once all engagements have been completed, provide two bound ~~an original copies of each report to the Committee. The Committee will provide the reports of such report to the Florida Commission on Ethics. An original of such report must also be provided to the Committee.~~

**3. Confidentiality of Records and Other Matters**

Workpapers developed by the CPA or CPA firm during the course of the attestation engagement as a basis for, and in support of, the agreed-upon procedures report, are governed by standards adopted by the Florida Board of Accountancy. Ownership of such workpapers and the CPA's responsibilities related to communications with clients and confidential client information are set forth in Sections 473.316 and 473.318, *Florida Statutes*, and Chapter 61H1-23, *Florida Administrative Code* (Rules of the Florida Board of Accountancy).<sup>6</sup> Such workpapers and draft reports of a CPA or CPA firm are confidential, but a final report submitted by a CPA or CPA firm to a client is not. Therefore, the agreed-upon procedures report is confidential until the report is issued.

Records of a lobbying firm that are associated with the attestation engagements relating to the quarterly compensation reports are confidential and exempt from public record disclosure requirements, unless there is a finding of probable cause that the audit reflects as a violation of the reporting laws. (See Sections 112.3215(8)(d) and 11.0431(2)(a) and (i), *Florida Statutes*)

---

<sup>6</sup> A CPA may not disclose any confidential information in the course of a professional engagement, except with the consent of the client.

**JOINT LEGISLATIVE AUDITING COMMITTEE  
GUIDELINES FOR ATTESTATION SERVICES RELATING TO  
LOBBYING FIRM COMPENSATION REPORTS**

The CPA or CPA firm contracted to perform the attestation engagement may be required to appear before various committees of the Legislature or the Florida Commission on Ethics, as applicable, to make oral presentations of the completed attestation report. If such appearance is required, the individuals involved will be paid based on the fee schedule that will be included in the contract with the CPA or CPA firm.

**Local Government Financial Reporting**  
**Summary of Requirements and Enforcement Authority**  
**Related to the Joint Legislative Auditing Committee and Action Taken**

The Joint Legislative Auditing Committee (Committee) has the authority to enforce penalties against local governmental entities that fail to file certain reports, including an annual financial report and an annual financial audit report.

**Annual Financial Report (AFR)**

- All counties, municipalities, and independent special districts<sup>1</sup> were required to file an AFR with the Department of Financial Services (DFS) for FY 2013-14 no later than 9 months after the end of the fiscal year (June 30, 2015, for most entities)<sup>2</sup> [s. 218.32(1), F.S.]
- Dependent special districts are also required to file an AFR, but they may be required to file the report with their county or municipality rather than with DFS [s. 218.32(1)(a) & (b), F.S.]
- Either staff of the entity or a certified public accountant may complete the AFR; specified staff of the entity are required to complete the certification page
- DFS notifies the Committee of the entities that have failed to file the AFR [s. 218.32(1)(f), F.S.]
- Committee staff monitor the submission of late-filed AFRs and contact all entities that continue to be non-compliant<sup>3</sup>
- DFS will assist entity staff in completion of the electronic AFR once the entity has the information needed
- The Committee may schedule a hearing to determine if action should be taken [s. 11.40(2), F.S.]

**Annual Financial Audit<sup>4</sup> (audit)**

- The following table shows the audit requirements for counties, municipalities, and special districts [s. 218.39(1), F.S.]:

Type of Entity	Audit Requirement
<b>Counties</b>	Annual audit required
<b>Municipalities –</b> Revenues or expenditures over \$250,000	Annual audit required
<b>Municipalities –</b> Revenues or expenditures between \$100,000 and \$250,000	Audit required if an audit has not been performed for the previous two fiscal years
<b>Municipalities –</b> Revenues or expenditures below \$100,000	No audit required
<b>Special Districts –</b> Revenue or expenditures over \$100,000	Annual audit required
<b>Special Districts –</b> Revenue or expenditure between \$50,000 and \$100,000	Audit required if an audit has not been performed for the previous two fiscal years
<b>Special Districts –</b> Revenue or expenditures below \$50,000	No audit required

<sup>1</sup> As of October 16, 2015, the Department of Economic Opportunity's website lists 1652 active special districts; 1020 are independent and 632 are dependent. A dependent special district has at least one of several characteristics including: the governing board is the same as the one for a single county or single municipality or its governing board members are appointed by the governing board of a single county or single municipality. An independent special district has no dependent characteristics.

<sup>2</sup> All counties, municipalities, and most special districts follow a fiscal year of October 1<sup>st</sup> to September 30<sup>th</sup>.

<sup>3</sup> Committee staff notify each entity that has failed to file an AFR. Correspondence is usually sent by certified mail, return receipt requested, informing the mayor, board chair, or registered agent, as appropriate, of the AFR requirement and possible penalty.

<sup>4</sup> The primary focus of a financial audit is to examine the financial statements in order to provide reasonable assurance about whether they are fairly presented in all material respects.

- Audit reports for FY 2013-14 were required to be filed with the Auditor General no later than 9 months after the end of the fiscal year (June 30, 2015, for most entities) [s. 218.39(1), F.S.]
- Audits must be conducted by an independent certified public accountant (CPA) retained by the entity and paid from its public funds [s. 218.39(1), F.S.]<sup>5</sup>
- If an entity has not filed an AFR, the Auditor General may not have sufficient information to determine if an audit was required
- After June 30<sup>th</sup>, the Auditor General sends a letter to all entities that either *were* or *may have been* required to provide for an audit and file the audit report with the Auditor General but have failed to do so
- The Auditor General notifies the Committee of the entities that have failed to file an audit report [s. 11.45(7)(a), F.S.]
- Committee staff monitor the submission of late-filed audit reports and contact entities that continue to be non-compliant<sup>6</sup>
- The Committee may schedule a hearing to determine if action should be taken [s. 11.40(2), F.S.]

### Committee Hearings: Authority and Action Taken

- The Committee is authorized to take action, as follows, against entities that fail to file an AFR or an audit report [s. 11.40(2), F.S.]:

Type of Entity	Penalty
Counties and Municipalities	Direct the Department of Revenue (DOR) and the DFS to withhold any funds not pledged for bond debt service satisfaction which are payable to the entity until the entity complies with the law. <sup>7</sup> Withholding begins 30 days after the agencies have received notification.
Special Districts	Notify the Department of Economic Opportunity (DEO) to proceed pursuant to provisions of ss. 189.062 or 189.067, F.S. If no registered agent information is available, the department may declare the special district to be inactive after public notice is provided in a local newspaper. For special districts created by Special Act of the Legislature, the Committee may convene a public hearing at the direction of the President and the Speaker. For special districts created by local ordinance, the chair or equivalent of the local general-purpose government may convene a public hearing within three months after receipt of notice of noncompliance from the Committee. For all special districts, once certain criteria is met, within 60 days of notification, or within 60 days after any extension the DEO has provided as authorized in law, the DEO files a petition for enforcement in Leon County circuit court to compel compliance. Note: The law was revised to authorize public hearings in 2014.

- During the years 2009 through early 2015, the Committee directed action against a total of 66 municipalities and 188 special districts. Most of these entities filed the required reports either by the date Committee staff was directed to notify DFS, DOR, or the Department of Community Affairs (DCA)/DEO, as applicable, or within the timeframe the state agencies had to commence with action once notified by the Committee.<sup>8</sup> When the required reports are filed prior to the effective date of the action, revenue is not withheld (counties, municipalities) and legal action does not occur (special districts).
- As a result of the Committee's action since 2009, revenue has been withheld from 12 municipalities, eight special districts were declared inactive, and a petition was filed in court against 16 special districts.

<sup>5</sup> The Auditor General may conduct a financial audit of a local governmental entity, either under his own authority or at the direction of the Committee. If this occurs and the entity is timely notified, the entity is not required to engage a private CPA to conduct an audit. The Auditor General conducts very few audits of local governmental entities. Generally, if an audit is conducted it is an operational audit, not a financial audit.

<sup>6</sup> Committee staff notify each entity that has failed to file an audit report. Correspondence is sent by certified mail, return receipt requested, informing the mayor, board chair, or registered agent, as appropriate, of the audit requirement and possible penalty.

<sup>7</sup> To date, the Committee has not taken action against any county. All counties have filed the required reports by the dates of the Committee hearings. The Committee has directed DOR and DFS to withhold revenue from a number of municipalities. DOR withholds Municipal Revenue Sharing and Half-Cent Sales Tax funds from municipalities that would otherwise receive these funds. Municipal Revenue Sharing funds are restored to the municipality if the municipality files the required report(s) prior to the end of the state's fiscal year. Half-Cent Sales Tax funds are redistributed and are not available to be restored to the municipality once a distribution is made. DFS has withheld grant funds from some municipalities. These funds are released to the municipality once the required report(s) are filed.

<sup>8</sup>DCA no longer exists; this function is now handled by DEO. DFS and DOR are provided 30 days and DEO is provided 60 days to commence with action.

## MUNICIPALITIES

	Municipality (County)	Senate District	House District	Financial Report(s) Not Submitted	Comments	Staff Recommendation

Since revenue withholding began in April 2015, DOR has withheld \$5,781.10 in half-cent sales tax and \$9,083.70 in municipal revenue sharing funds. DFS has canceled scheduled voucher payments to the Town from DOT (\$2,300 for reimbursement of mowing and litter removal) and DBPR (\$ _____ for _____) [PENDING INFO FROM DFS].</p> <p><u>History:</u></p> <p>-Town was first added to Committee action list in March 2009. At that time, the last audit report submitted to Auditor General was for FY 1999-2000. DOR began withholding half-cent sales tax funds and municipal revenue sharing funds in excess of the minimum entitlement starting 4/15/2009.</p> <p>-In an effort to assist the Town in becoming compliant, in October 2010 Chair and Vice Chair approved sending a letter to Council Chair stating that Committee would accept an audit of FY 2009-10 in lieu of past due audits. The letter listed steps that needed to be completed in order for the Town to be in full compliance. In December 2011, an audit engagement letter for FY 2009-10 was provided to Committee staff, and DOR and DFS were notified to cease state action against Town.</p> <p>-Finally in February 2013, Town submitted an audit report for FY 2009-10. However, the opinion on the financial statements included major qualifications, due to lack of accounting records. At 2/11/2013 meeting, Committee approved to take no state action re: delinquent FY 2010-11 audit report and FY 2008-09 AFR. Decision for no state action was based on conversation with partner of CPA firm, who stated that state of accounting records for subsequent fiscal years is not any better, and he is not positive whether an audit of those fiscal years could be performed at all.</p> <p>-In February 2015, Committee approved to (1) take action if FY 2012-13 AFR and audit report were not submitted by a date certain and (2) direct Committee staff to notify the delegation members or staff regarding the situation.</p>	*Take action if not received by 11/6/2015.

4	Santa Rosa Bay Bridge Authority (Santa Rosa County; Special Act)	2	2, 3	FY 2013-14 AFR and Audit Report** FY 2012-13 AFR and Audit Report** FY 2011-12 AFR and Audit Report** FY 2010-11 AFR and Audit Report** Fy 2009-10 Audit Report FY 2008-09 Audit Report (** = if audit threshold met)	Since 2/12/2015, DEO's records have shown the Authority's registered agent name and address as "Unknown."  <u>History:</u> -Since at least 2009, the Committee has approved to delay action until a later date since the Authority only has restricted funds, which cannot be used to pay for an audit. DOT staffs the day-to-day operations of Authority, and until sometime in 2013 the DOT IG's Office compiled the financial statements and submitted the AFR for the Authority. -On 6/30/2011, the Authority was unable to make its \$5 million bond payment, and the trustee alerted the bondholders to the default. Since the bonds were not backed by the full faith and credit of the State, the State is not liable for the debt. DOT continues to operate and maintain the bridge. -In November 2013, the Authority's registered agent stated that DOT and the bond trustee had agreed to each pay half of cost for an independent reviewer/consultant to help review financial information and get AFRs submitted. -In January 2015, DEO forwarded an email from the Authority's registered agent of record to Committee staff. He stated that he had resigned from the Authority's Board in December 2014, following other members' resignations by about two months. Mellon Bank had sent a directive for the Board to increase the bridge toll from \$3.75 to \$5; if such action had not been taken within 30 days, they were going to circumvent the Board and direct the State to raise the toll. He stated that he resigned because he had long said that he would not serve through another unwarranted toll increase and he meant it. DEO removed him as the registered agent in its records and requested, if he was aware or became aware of anyone else who was handling registered agent responsibilities for the Authority, that he let DEO know or ask the person to contact DEO.	*Continue to delay action.

Due to the requirement for an audit, the District we are unable to complete the AFR at this time. The District is transitioning to another management company, so further updates will need to be directed to that management company.</p> <p><u>History:</u> The Committee has delayed action against the District since August 2012 because the original developer filed bankruptcy, and the District is economically dependent on the developer. As a result, the District has not had sufficient funds to pay for audits. The revenues and expenditures had fluctuated with regard to being over and under the \$50,000 audit threshold and are not in the \$50,000 to \$100,000 audit threshold.</p>	*Continue to delay action.

The District was currently engaged in the FYE 9/30/12 audit. The District was now in good financial standing; the delay was caused years ago due to the financial problems of a developer that is no longer affiliated with the project.            -FY 2011-12 audit report has now been submitted.</p>	*Continue to delay action, since District is working to catch up on delinquent audits.
